

## **PROGRAMME: Wednesday 11<sup>th</sup> September** **Gastroenterology in travellers and migrants:**

The first half of this session will focus on diarrhea in the returning traveller. We will also be looking at how parasites can cause chronic GI symptoms seen in primary care and how to diagnose and manage these conditions.

In the second half of our session we will hear about common gastroenterological conditions seen in our migrant populations, and how they may present in your local surgery.

• 6.30 – 7.00pm	Supper
• 7.00 – 7.10pm	Introduction: Dr Mike Brown, Consultant Infectious Diseases, UCLH
• 7.10 – 7.50pm	- Diagnosis and management of gastroenterological infection in travellers and migrants - Dr Mike Brown – Consultant Infectious Diseases, UCLH
• 7.50 – 8.00pm	Coffee/Tea break
• 8.00 – 8.35pm	- Gastroenterology in migrants: - Dr Stuart Bloom, Consultant Gastroenterologist, UCLH
• 8.35 – 8.40pm	Wrap up/certificates/feedback

### **DON'T FORGET OUR NEXT EVENT:**

- **Thursday 21<sup>st</sup> November: Mental health in migrant populations and returning travellers:**
  - PTSD
  - Psychiatric presentations of infectious diseases
  - “I am convinced I’ve got a parasite”
